

WHO WE ARE & WHAT WE DO

The Terry Dunnage Foundation was set up to provide support for people with life changing injuries and disfigurements.

We also want to raise awareness of the effects of life changing injuries, such as mental health and depression, both of which Terry suffered when he was disfigured in a fire.

We hope to raise awareness and ultimately bring about social acceptance of people who have to face the world with disfigurements.

**“FIRE DOESN'T DISCRIMINATE
AND NEITHER SHOULD WE.”**
